

Upgrading T3

Note:

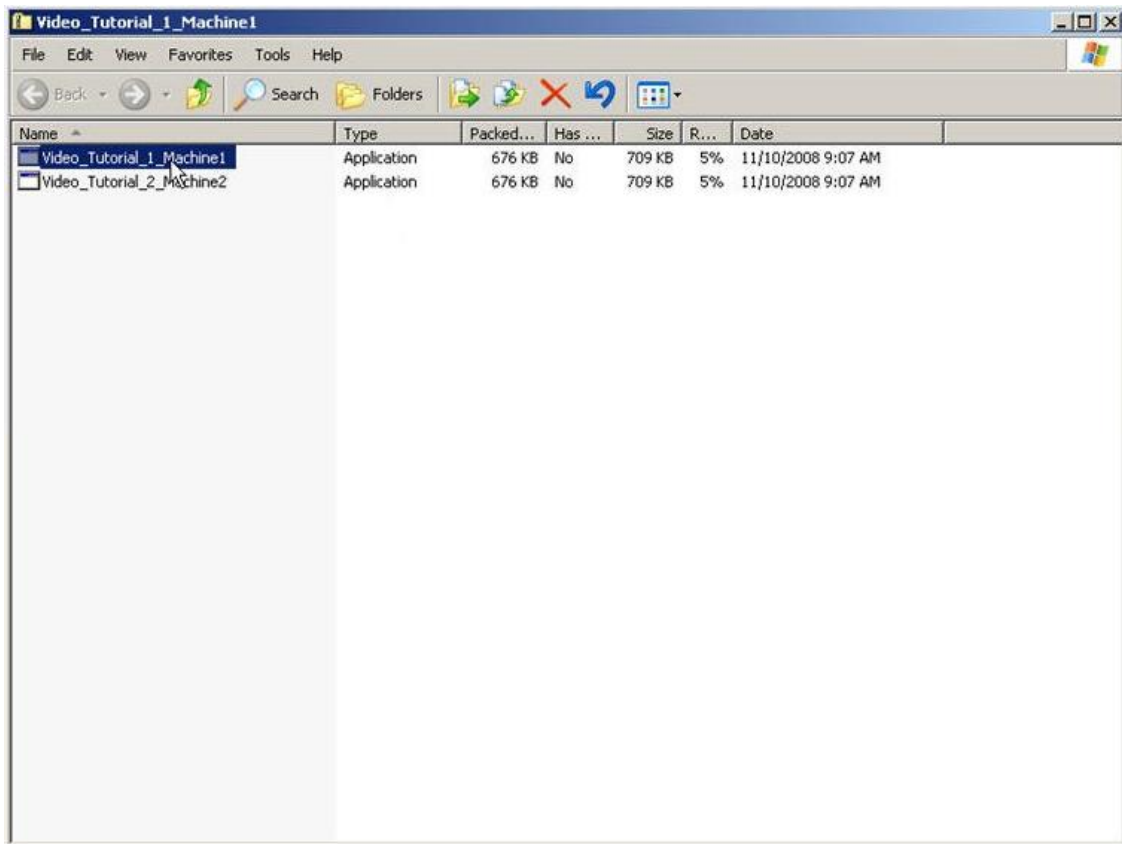

- A T3 Setup file may only be installed on one machine per file. You will not run if you try to load the same T3setup file on multiple machines.
- When installing the T3 file, have TradeStation and/or MultiCharts closed
- The installation file may only be used (executed) twice, before tech assistance is needed
- When importing the T3 Indicators, have all workspaces closed in TradeStation
- No Import is needed for MultiCharts

Steps for TradeStation T3 Installation

1. Close TradeStation and/or MultiCharts
2. Save the attached T3 Zip File to your desktop. This attachment is emailed from upgrade@nexgent3.com

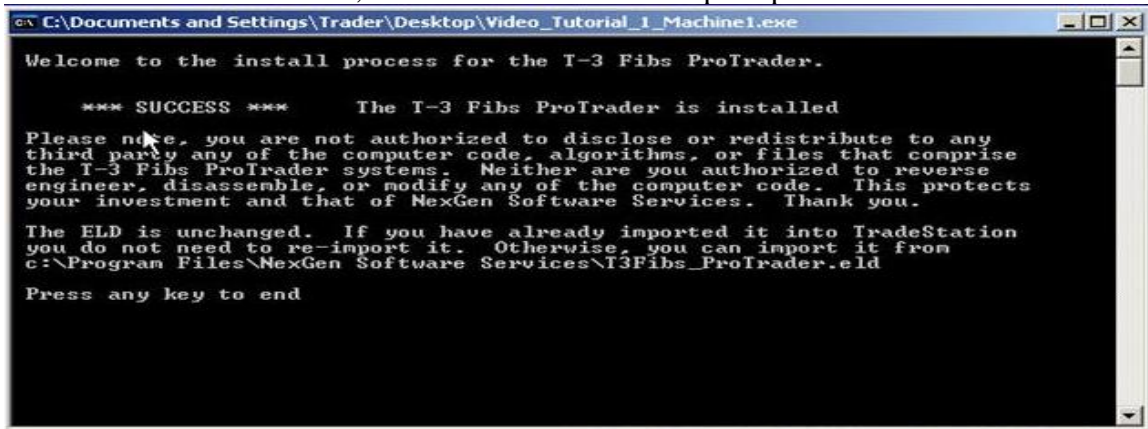

3. Locate the file that will be used on your machine.
 - a. Files are specific for each computer
 - i. Machine One (Desktop)
 - ii. Machine Two (Laptop)
 - b. If a file is installed on more than one machine, it will cause your software to not run properly

4. Run the file

a. If “Success”, close the black command prompt

```
C:\Documents and Settings\Trader\Desktop\Video_Tutorial_1_Machine1.exe

Welcome to the install process for the T-3 Fibs ProTrader.

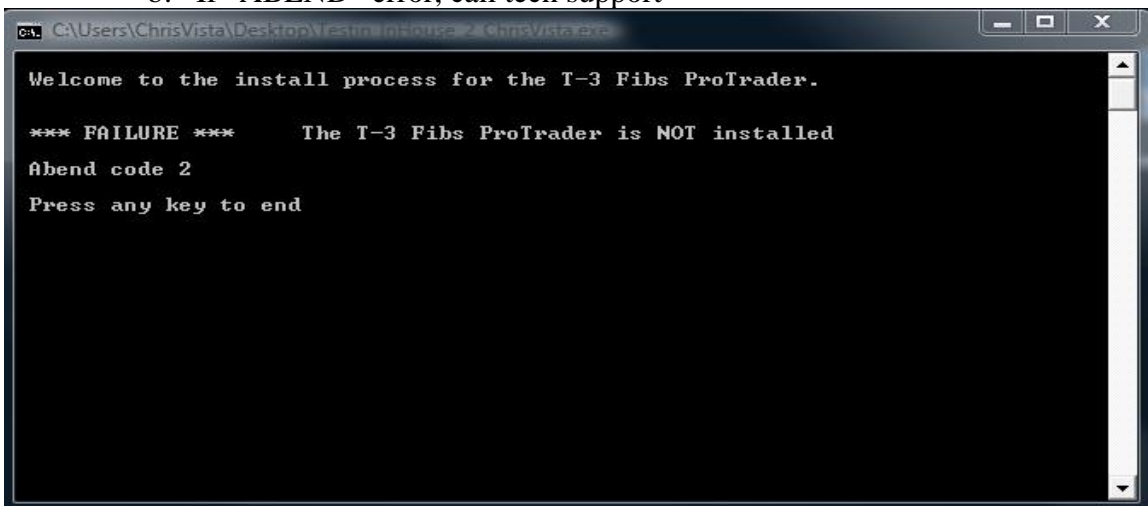

*** SUCCESS ***      The T-3 Fibs ProTrader is installed

Please note, you are not authorized to disclose or redistribute to any
third party any of the computer code, algorithms, or files that comprise
the T-3 Fibs ProTrader systems. Neither are you authorized to reverse
engineer, disassemble, or modify any of the computer code. This protects
your investment and that of NexGen Software Services. Thank you.

The ELD is unchanged. If you have already imported it into TradeStation
you do not need to re-import it. Otherwise, you can import it from
c:\Program Files\NexGen Software Services\T3Fibs_ProTrader.eld

Press any key to end
```

b. If “ABEND” error, call tech support

```
C:\Users\ChrisVista\Desktop\Video_Tutorial_1_Machine1.exe

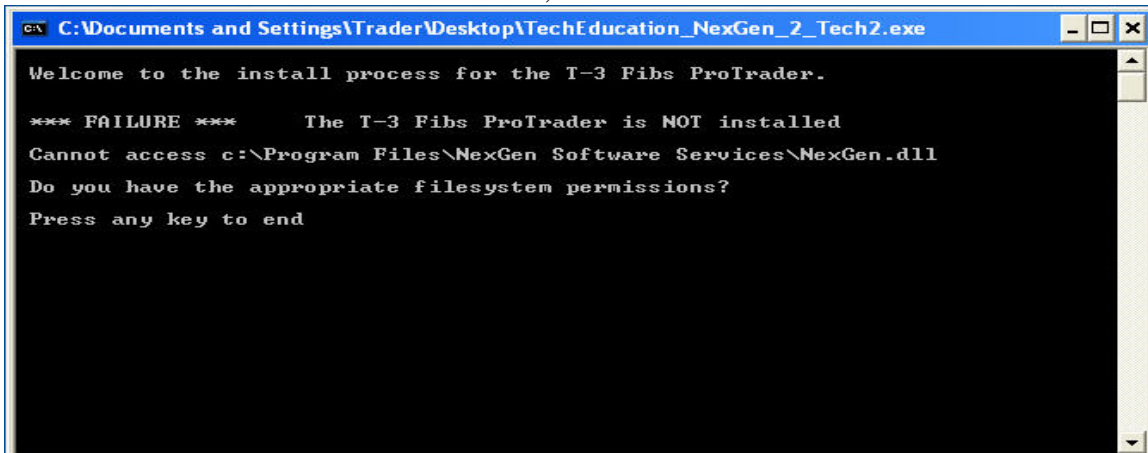

Welcome to the install process for the T-3 Fibs ProTrader.

*** FAILURE ***      The T-3 Fibs ProTrader is NOT installed

Abend code 2

Press any key to end
```

c. If “Failure Cannot Access”, reboot and rerun the installation file

```
C:\Documents and Settings\Trader\Desktop\TechEducation_NexGen_2_Tech2.exe

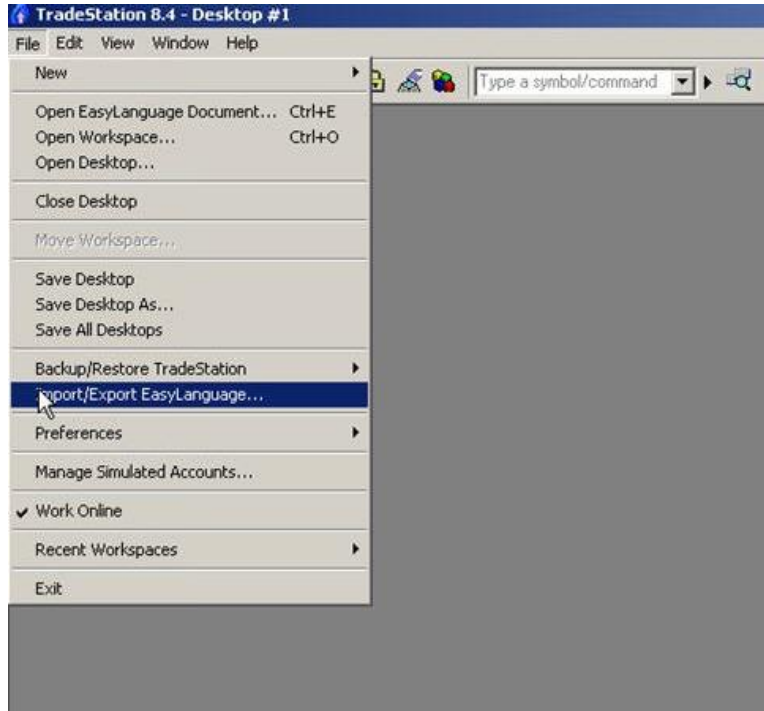

Welcome to the install process for the T-3 Fibs ProTrader.

*** FAILURE ***      The T-3 Fibs ProTrader is NOT installed

Cannot access c:\Program Files\NexGen Software Services\NexGen.dll
Do you have the appropriate filesystem permissions?

Press any key to end
```

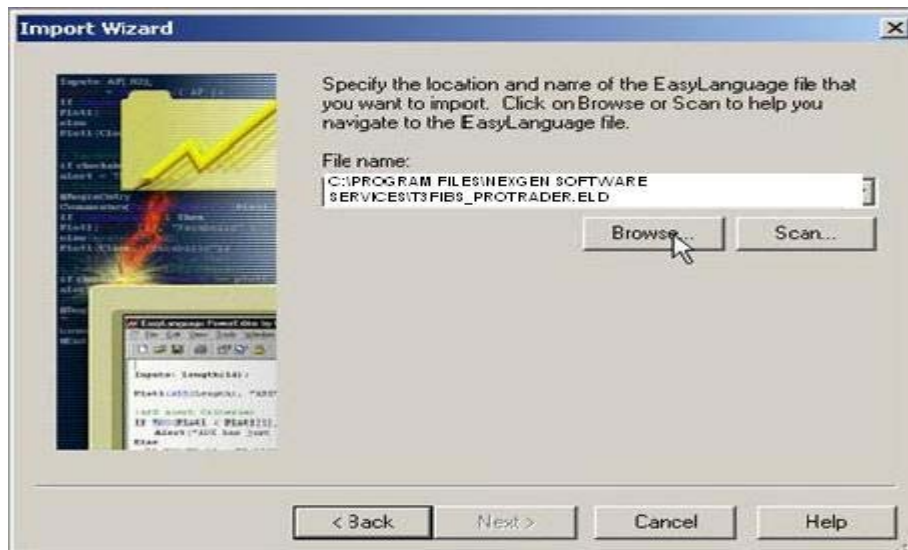

5. Import the T3 Indicators
 - i. Select File
 - ii. Select Import Export Easy Language

- iii. Highlight the second option, for ELD, ELS, or ELA
- iv. Select Next

- v. Select Browse
- vi. Type in or EXPLOR TO “C:\PROGRAM FILES\NEXGEN SOFTWARE SERVICES\T3FIBS_PROTRADER.ELD”

- vii. Select Next
- viii. Select Next
- ix. Select Finish
- x. Select “Yes to all” if prompted
- xi. Select “Ok” once import is complete

- 6. Open a T3 workspace to verify that your software is running

If you experience any issues during the installation we will have our technical support staff on duty Saturday November 15th from 9 am – 1 pm CST and at 7 am CST on Monday the 17th.
