

TOMORROW'S TRADING TECHNOLOGY

100% automated Fibonacci support and resistance levels that you can count on every single trading day in an instant.

Loading Ninja Trader Demo from AMP futures

Click <u>http://www.ampfutures.com/nexgen.php</u> to get to the downloads page and fill out the information to get your Free Ninja Demo.

Welcome Nexgen Traders!

is the combined result of an industry leading trading platform powered by an institutional grade trading engine that is managed by an experienced team of network professionals. Solutions for selfdirected traders, automated systems and API developers all in one package. <u>Zen-Fire</u> provides the speed, reliability and functionality needed for trading and centralizes back-office setup and order management for enhanced risk management.

NinjaTrader Direct - FREE

Fully licensed Depth of Market Trading Windew Time Charts & more.

NinjaTrader Standard- \$60/month

Brackets, Trailing Stops, OCO's plus many other Advanced Order Strategies.

Ninja can then be downloaded from the screen you will be taken to after clicking submit.

Congratulation! Thank you for registering for the Free Simulated NinjaTrader Demo

Below you will find your licence key, Ninja Trader download, and an online tutorial of the trading software.

To access NinjaTrader, you must follow the instructions below:

- Click on the download link below, a pop-up window will appear.
- Check "Save this Program to disk" and click "OK".
- Save the program into your "Desktop".
- Once download is complete, click on "Open". (If "Open" is not available go to the desktop where you saved the file and double click on it).
- Follow the installation instructions on the screen.

Important: Also, you must first install the Microsoft .NET 2.0 Framework.

This will bring up a file download window that you will need to click RUN when you see it.

File Download - Security Warning								
Do you	want to run or save this file?
